Skills assessment requirement for Electrical Engineer

In order to get a +ve Skills Assessment for this category, we have to consider the following.

- The occupations in this unit group have a level of skill commensurate with a bachelor's degree or higher qualification. In some instances, relevant experience and/or on-the-job training may be required in addition to the formal qualification (ANZSCO Skill Level 1).
- You must also make a **Competency Demonstration Report (CDR) containing three Career Episodes, Professional Development and Summary Statement.**

Competency Demonstration Report (CDR) containing three Career Episodes

A career episode is an account of your engineering education and/or work experience. Each career episode focuses upon a specific period or distinct aspect of your engineering activity. Each career episode must focus on a different period or aspect of your engineering activity. Each episode should focus on how you applied your engineering knowledge and skills in the nominated occupation.

Career Episodes based on work experience must be accompanied by evidence of employment. These should be uploaded to the "Employment" section of your online application.

You may base your career episode upon:

- an engineering task was undertaken as part of your educational program;
- a project you have worked on or are currently working on;
- a specific position that you occupied or currently occupy (in this case, the career episode must comprise more than a mere duty statement);
- a particular engineering problem that you were required to solve.

Continuing professional development:

Continuing Professional Development (CPD) is the means by which you keep up-to-date with developments in your field of engineering after you have gained your undergraduate qualification.

All relevant CPD must be included in your CDR application. The CPD must be provided in Table format (title, date, duration, venue and organiser) and may include details of:

- formal post-graduate study;
- conferences at which you have delivered papers or attended;
- short courses, workshops, seminars, discussion groups, technical inspections and technical meetings you have attended;
- preparation and presentation of material for courses, conferences, seminars and symposia;
- services to the engineering profession (volunteer work, board or committee volunteering, mentoring, etc.);
- private study (includes books, journals, manuals, etc.).

Your CPD listing must not be more than one A4 page.

It is not necessary to include certificates from each course.

Summary Statement

These are the competency Units and Elements. These elements must be addressed in the Summary Statement. If you are applying for assessment as a Professional Engineer
